NO. 29.

Written for the Maine Farmer.

Song-A Farmer's Life.

BY ARTHUR MORRELL. O, a farmer's life, a farmer's life, From every trouble free, With enjoyment rife, and free from strife-O, a farmer's life for me! With enough to drink and enough to eat,

And a homespun suit to wear, And the wherewithal a friend to treat, And something the poor to spare. O, a farmer's life, a farmer's life, From every trouble free, With enjoyment rife, and free from strife— O, a farmer's life for me!

'Tis a happy life, 'tis a merry life-Independent, too, I trow; For he alone is lord of the soil, The knight of the scythe and hoe In spring he turneth the genial mould, Himself and his jovial crew;

He plants the seed, and in autumn, behold!

What a harvest greets his view.

O, a farmer's life, &c. On a summer's morn, with scythe in hand, See him cleave the fragram hay, The happiest man in all the land-And he labors as though 'twere play. "Tis thus he works; and when at night,

His needful labor o'er, He hies him home, a smile-how bright! Awaits him at the door. O, a farmer's life, &c.

In winter what comforts crowd his hearth, Though without 'tis never so cold; How the kitchen resounds with honest mirth, As the story and joke are told. And when old age comes on at last, And he draws the last short breath, Like the yellow sheaf, unharm'd by the blast, He is "ripe for the reaper, Death."

O, a farmer's life, a farmer's life, From every trouble free, With enjoyment rife, and free from strife-O, a farmer's life for me! New York, July 5th, 1844.

Cutting Wheat Early.

The action of the with the othe

air. The carbonic acid of air, that which afone extracts the alkali from spent ashes, cannot here set. There is this other lesson to be learned from these facts, that it is chiefly the alkaline action which is wanted from spent ashes. Hence, no one who thus understands the source, and the true value of ashes, will allow the alkaline portion to be first leached out, unless he can find a more economical use for it than its application as a fertilizer. Perhaps no fact speaks louder, that the great action of speat ashes is that of its potash, than this, that where we prevent that from being extracted, the spent ashes are of little value. If, then, spent ashes derive their great value from the potash, much more will un-leached ashes derive their value from their potash.

Now, reader, the point to which I have led you in these remarks, is this: that the more alkaline any salt is, the better is it for manure. Hence, as a general rule about the use of salts, it may be laid down that the alkaline salts, that is, potash, pearlash, common ashes, barilla ashes, white, or soda ash, are the best. And as these, in all their various shapes, are the cheapest and most common articles, so you need not run after a long list of other salts. Next in value to the real alkalies, are spent ashes, used in a light porous, open, sandy soil, if you would derive the greatest benefit from them. Next to these comes peat ashes. You well know these are of no value to the soapmaker. But not so to you .-They show only traces of alkaline power. But treat them as you did spent ashes. Their power, inde-pendent of their bone-dust, which is by no means small, and their plaster, which is still greater, and that you may be inclined to use it. Be it so. I their lime, which is perhaps the greatest, lies in the will show you, reader, how to make it for yourself, alkali, which is locked up, as it is in spent ashes .and at the same time form a large pile of capital Treat them, therefore, as you did spent ashes, and mould. But as you have began to inquire a little then peat, ashes will, and do afford, alkali. So too into the reason of things, let us go a little into the coal ashes, even your hard authracite ashes, yield reasons why the earth under all barns where cattle all the substances which spent ashes do. It is easiare kept, why the plaster of old houses and cellar ly seen, therefore, when, how, and where, spent ashwalls, always afford saltpetre. You well know that es, peat ashes, coal ashes, are most likely to do this is the case, and why? We have already told good. Perhaps we may not have a better place to you that the acid of salipetre, that is, the aquafortis, state the fact that a cord of soaphoiler's spent ashes is formed of the air we breathe. Now alkalies and contain about 50 lbs. of potash. When we add to porous bodies compel the constituents of air, under this, 117 lbs. of bone-dust, and about a ton and a certain circumstances, to unite and form squa-fortis half of chalk, or carbonate of lime, which acts chiefand this immediately unites to the alkali and forms by on the soil, and so comes not now under considsultpetre. The best alkali to compel this union is eration, it is seen that there is no cheaper source of Hence, where plenty of animal matter is alkali, and salts, to one within reasonable carting

CHINESE SUGAR .- The rapid increase of the debeen found that the manure of twenty-five cows, mand for British goods in China since the close of asses and mules, in layers of about four it ches thick the war and the opening of the ports, and the proswith layers of the same thickness of chalky soil, first pect that demand will be increased to a much greatone and then the other, and now and then damped er extent, as the people in the northern provinces of that populous empire become better acquainted with the cheapness and excellence of British manufactures, readers it a matter of great consequence that ly shovelled ever. At the end of two years, it is a the number of articles received in return from that country should be increased, and it is, therefore satisfactory to learn, that there is a prospect of our rewith urine for the last few months. The dung the ceiving a considerable quantity of sugar from China under the new scale of duties mentioned by the Chanceller of the Exchequer, in his speech on the ed up with its bulk of loam. Hence the following Budget. We see from Mr. Bernard's interesting rule may be given: One cord of clear cow-dung, account of the voyage and services of the Nemesis, rule may be given: One cord of clear cow-dung, one cord of spent ashes, one cord of loam, or swamp muck. Mix the ashes and the swamp muck well, and having hard-rammed the barn-cellar floor, or that under a shed, lay a bed upon it four inches thick of these mixed materials; then a layer of dung, three or four inches thick, and so on, till the pile is two or three feet high, topping off with loam. Wet it occasionally with urine, keeping it always about as moist as garden mould. Shovel over once forthight for two years. The pile now contains importation very small. [Ex. paper.

FLOUR, GRAIN AND WOOL-The following extract of a letter, dated Buffalo, June 21st, is from

the Tribune: full, and kept by itself for cattle while at spring ting to be overlooked. A farmer may be able by name or nature, which are likely to be of any serwere to be the great leading articles of import and full, and kept by itself for cattle while at spring work, and purchasers have observed, that without work, and purchasers have observed, that without early cutting, frequently to avoid the calamity of vice to the farmer, are those only which either enter rust, which is often so destructive in large sections into and form part of the plants, or which, by the more than half the amount, as it was heavier than of the country. Loss by shelling is almost wholly action of their acid or base, act on the earthy parts past two or three seasons, it must certainly assume they expected, and on using it, they have spoken avoided; and the straw, if used for feeding cattle, of soil, or upon the mould. Salts either poison or a high standard of importance. Early in the season is much enhanced in value.

Let us reason from analogy. If a person was is much enhanced in value.

The grain should not be cut however as soon as take, are good in small doses; the second can hard-west of us, which being added to the quantity gathabout to cut a piece of corn, and feed grain and stalks it is in the milk, as in such case it will shrink; but, ly injure, even by their excess. If we recur to the ered up here, gave the exports by the canal a greatabout to cut a piece of corn, and feed grain and stalks it is in the milk, as in such case it will surink; but, to cattle, at what period would he cut it? Not one in a hundred would choose to cut it when in blossom thumb and finger; and when the straw has turned that the ashes of plants contain all their salts, then there is one single invoice unloading from a steamer but when the grain was full, or had begun to turn. Some will say that this is not a parallel case, as corn yields more seed than grass. True it does; the milk of the grain will be in the condition of ashes. We have in ashes a great the harbor, similar but less important invoices may then allowing the stalks only are sold and the pur-chaser takes his own time for cutting, without regard the kernel for the nourishment which properly befrom 30 to 35 cents.

The flour and grain trade has been unbroken by place in which it may be stored. More than 20,000 bushels have gone down to the Rock for such disposition. The warehouses here were filled to replenon with flour, &c., long since.

THE STEAM HORSE.—The following description of the steam horse, is from the pen of Elihu Burritt, Muriatic, essentially com- the learned Blacksmith, and is one of the most graphic descriptions we have ever read.

"I love to see one of those huge creatures with his smoky stable, and saluting the long train of cars fall gently back into his harness. There he stands, champing and foaming upon the iron track, his great heart a 'urnace of glowing coals; his lymphatic blood is boiling in his veins; the strength of a thousand horses is nerving his sinews-he pants to be gone. He would "snake" St. Peter's across the desert of Sahara, if he could be fairly hitched to it:

and the better this can be done—that is, the less moisture you can have upon it from dews or rains, the better will the hay be, of course. Our farmers demonstrate while the other can form but 9 quarts in the same length of time. A pig whose organization is apparently nearly perfect, will elaborate from a given amount of raw material, twice as much flesh and fat the conveythe elements of whose organization is apparently nearly perfect, will elaborate from a given amount of raw material, twice as much flesh and fat the conveythe elements of the conveythe elements of the conveythe elements of the blood-tended of the conveythe elements of the conveythe ele commenced having pretty strong last week, and as another whose respiratory and assimilating ma-sheep. "God bless you, my boy." I remembered my them with the deepest sadness, as we would a mother's grief as I left her,—she whose gentle arms cradled my infancy,—whose bosom was human soul to bear, than whips or prisons.—

There are other statements in either the victims. There are other statements in end, or its present halting place. The subjoined was returned.

A scuffle then ensued—a brick was thrown from arms cradled my infancy,—whose bosom was my resting place, whose tender care was my defence. I heard again her low and faltering, but sweet tones, pronounce the "good bye,"

There are other statements in four the subjoined and infancy,—whose bosom was human soul to bear, than whips or prisons.—

There are other statements in four the subjoined account from the Philadelphia Sun, will give our the crowd at the soldiers—and immediately after-ford, Williams, Ball, Dougherty, M'Carren, and the fring commenced. It seems from all that the crowd at the prophet was five or six others. Private Crawford has had his arm amputated at the shoulder. Total wounded, 48. but sweet tones, pronounce the "good bye," away. In nine cases out of ten, I believe it leaning or sitting upon a window when shot, and on Sunday the 7th instant: tell from it exclaiming, " My God! my God!" and and my heart-strings again vibrate at the choking and agonizing farewell. For aught I king and agonizing farewell. For aught I know, that murmured prayer that heaven would watch over and protect her child, may have been my shield in many an hour of peril, and my guard through many an unseen danger.

I felt rebuked for my want of faith, and conking farewell. For aught I the same gentleman further adds, a brother of the Priest, waited upon General Patterson, to get a request from him to Governor Porter, that when he reached the ground, in a lifeless state, handed laborer brought greater riches to my shield in many an hour of peril, and my guard through many an unseen danger.

I felt rebuked for my want of faith, and conking from it exclaiming, "My God! my Go

the absence that will not find numbered with the dead some among those who constituted its attraction; to find engraven on the tomb stone the names of those to whom in life we were indifferent, gives us a feeling of loneliness and gloom. In the various scenes of life's drama, we are often called to witness sorrow and mourning as well as joy and gladness. These are the fights and shadows of our existence, and the lights and shadows of our existence, and the least that they had had almost continual which he states that they had had almost continual the part of the states that they had had almost continual the part of the feed his right town on the peat of my had there was not that while they had had almost continual the part of the states that they had had almost continual the part of the states that they had had shows, there of t the lights and shadows of our existence, and so long as the "primeval curse" remains as entailed for the original violation of heaven's law, tailed for the original violation of heaven's law, these chequered scenes will be witnessed. But of all the sorrows we are called upon to rience, I doubt if there be any so well calculated to touch the heart,—to wring it to touch the heart,—to wring it to stand by the grave of as to stand by the grave of a dear friend with grave of the Columbia Bridge.

Much of the Priest, the Methodists worship in the deaves of the Co whom we parted in life and health. When in the wasting hours of sickness we are permitted to stand by the dying bed and see them gradually sinking to the grave,—when we can gradually sinking to the gradually sinking to the grave,—when we can assailants: that Taylor, the editor of the Nauvoo formed themselves into bodies of police, and were An intense degree of excitement was created thigh, but not seriously injured. After the assault, preserved excellent order.

Arrival of the Great Western.

The Steamship Great Western, Capt. Mathews, arrived at New York, a little after midnight, on Saturday night, bringing Liverpool dates to the 22d ult., and London to the evening of the 21st.

The Great Western made the passage in 14 days and 8 hours.

The public events, since the sailing of the Britania that has occurred upon this coast but is peculiarly. that has occurred upon this coast, but is peculiar extraordinary in this instance, as being perpetrate The Wanderer, 16 guns, arrived at Portsmouth on the 19th inst., bringing one million of dollars, being part of another installment of indemnity money from China.

On the 19th considerable attention was excited in

China.

On the 19th, considerable attention was excited in the House of Commons by the appearance of the Lord Mayor of Dublin, attended by a numerous deputation of the corporation in their robes of office, at the bar of the House, exercising their privilege of personally presenting the corporation petition in behalf of Mr O'Connell and his colleagues. It was read at length at the table, and its allegations were loudly cheered from the opposition benches.

The weather has broken, and the country, almost burnt up by the long drought, has at length been favored with genial showers.

Only be explained from the principle which instigates all civilized nations to the commission of such barbarious usages.

Insurrection at Dominica.—Capt. McLeod, of the brig Nova Scotia, arrived at Liverpool, N. S., from Dominica, announces that on the 5th ult. martial law had been proclaimed, in consequence of a rise among the blacks, about 300 being assembled near the town. One of the leading inhabitants had his horse cut down under him, and was himself so severable blacks had been shot down and great excitement and confusion prevailed. confusion prevailed.

> O'CONNELL AND IRELAND. A correspondent of the N. Y. Journal of Commerce writes from Dubli that he has had an interview with O'Connell in prison and adds:-

dalete, Capt. Malen, we have Vera Cruz dates up to the 20th ult, and from the city of Mexico to the 16th. The daring Gen. Sentmanat of whose departure from this place with a band of followers to revolutionize Tobasco, we have already spoken, has been taken prisoner and shot, and it is supposed that his followers will share the same fate.

It would seem that on nearing the coast of Tobasco, the vessel which had on board Sentmanat and his men was discovered, chased, and finally driven on shore between the bar of Chistepec and the principal bar, by the Mexican man-of-war brig Santa Anna. The revolutionists, some of whom had arms while others had nothing to defend themselves, immediately betook themselves to the mountains. After several brushes with the Mexican troops, in which several of his men were either killed or taken prisoners, Sentmanat himself was finally captured with only one follower, and shot at Jalapa, near Tobasco, on the 18th ult. It was thought his com-Do you ask, how did O'Connell look? I confess m

Hale & Co's Independent

A New Volume,

COMMENCING IN BEAUTIFUL STYLE,

JULY, 1844.

THE July number of Robert Merry's Museum will commence the Eighth Volume, and will embrace several improvements. The continued success which has hitherto attended this highly popular Juvenile Magazine is, it is believed, unprecedented; and the publishers propose to introduce into the work, during the coming volume, such a series of Mr. Merry's moral and instructive tales, as to place it at the head of similar publications either in this country or Europe.

Each number will be embellished with new and beautiful cuts, pictorial letters, &c., illustrative of its contents, and also a page of music, composed expressly for this work by George J. Wees. In a word, we promise to furnish our young readers with a large quantity of matter at a small price, which we hope will make them wiser, happier and better.

Terms.—One dollar a year in advance.

To Clubs.—4 copies of Merry's Museum, for \$3.00

May 15, 1844.

Which the wants of the Ramber character of the Centre Draught Plough, abundantly sustained by a continued and extended patronage, is in perfect accordance with the decision of an able and impartial committee of the Massachusetts Agricultural Society, in awarding to the inventors the sum of \$100, the highest premium ever given in this country for doing the best work with the least draught, in a trial open to the whole Union, running its natural course, inclining to keep whole Union, running its natural course, inclining to keep whole Union, running its natural course, inclining to keep whole Union, running its natural course, inclining to keep whole Union, running its natural course, inclining to keep whole Union, running its natural course, inclining to keep whole Union, running its natural course, inclining to keep whole Union, running its natural course, inclining to keep whole Union, running its natural course, inclining to keep whole Union, running its natural course, inclining to keep whole Union, running its natural course, inclining to keep whole Union, running its natural course, inclining to keep whole Union, running its natural course, inclining to keep whole Union, running its natural course, inclining to have whole Union, running its natural course, which a draught of only 244 p

lent work done by them; but the trial in Northampton, last fall, is worthy of a notice, where "in accordance with

their well trained teams, or won by extraordinary exertions, on fields where there was no competition; and they have raised the frequent cry of "Centre Draught Humbug," by which it is evident that the busy hum of public opinion, expressing the real merits of these ploughs, is by a kind of mysterious Centre Draught, continually buzzing in their ears, with a consciousness of its truth.

MISREPRESENTATIONS have also been made in

miskepresentations have also been made in regard to the trials in Essex County, by publishing statements and tables manufactured for the purpose, giving to their ploughs an advantage which the Report of the Committee did not exhibit, and which called forth from them the following severe rebuke:—"We hope they will have the fairness to take all the facts into view, and not a garbled selection, as has sometimes been done, and thereby entirely misrepresenting the impressions intended to be made by the Committee."

The Centre Draught Plough still stands unrivaled, bid-

susceptible, and we give constant attention to the subject.

Constantly on hand, Shares, Landsides, and Mould-boards of most Ploughs in use, and farming Implements of

all kinds.

Also Grass, Field, Garden, and Flower Seeds. Dealers

FARMER'S WAREHOUSE
19 & 20 NORTH MARKET & 20 CLINTON STS. BOSTON April 29, 1844. SHINGLE MACHINES.

THE subscriber is now making Shingle Machines at the MACHINE SHOP in this place, and Patent Scythe Snaths.

THE above improved article, which has received the entire approbation of farmers wherever it has been introduced, and which is believed to be superior to any article of the kind now in use, may be had at wholesale at the lowest prices at the hard ware store of

Patent Scythe Snaths.

He would request those wanting a good Shingle Machine to call on him and examine the improvement has made in the Machine for sawing shingles. By his improvement one eighth more shingles can be manufactured in the same given time than by any other machine now in use on the old plan. The above machines are warranted to give perfect satisfactive machines are warranted to give perfect satisfac-

bove machines are warranted to give perfect satisfaction or no sale.

Having put in operation forty of these machines the past year, the fact of their having given satisfaction is the surest guaranty of a good machine. The machines will be delivered and put in operation in any part of the state if required. Persons wishing to purchase will do well by calling on or writing to the subscriber before purchasing elsewhere. Also the SIDE CLAPBOARD MACHINE

CASTINGS of every description furnished of as Augusta, April 1, 1844.

DILLINGHAM & BICKNELL HAVE constantly on hand, at No. 8, MARKET

Love on, love on-ay, even though the heart We fondly build on proveth like the sand; Though one by one Faith's corner-stones depart And even Hope's last pillar fails to stand; Though we may dread the lips we once believed, And know their folsehood shadows all our days, Who would not rather trust and be deceived, Than owe the mean, cold spirit that betrays?

Love on, love on, though we may live to see The dear face whiter than its circling shroud, Though dark and dense the gloom of death may be, Affection's glory yet shall pierce the cloud. The truest spell that Heaven can give to lure, The sweetest prospect Mercy can bestow, Is the blest thought that bids the world be sure 'Twill meet above, the things it loved below.

Love on, love on, Creation breathes the words, Their mystic music ever dwells around; The strain is echo'd by unnumber'd chords, And gentlest bosoms yield the fullest sound. As flowers keep springing through their dazzling bloom, Is oft put forth for worms to feed upon; So hearts, though wrung by traitors and the tomb,

Not Married Yet.

I'm single yet-I'm single yet! And years have flown since I came out! In vain I sigh-in vain I fret!

Shall still be precious and shall still love on.

Ye gods! what are the men about? I vow I'm twenty-oh, ye powers! A spinster's lot is hard to bear-On earth alone to pass her hours, And afterwards lead apes-down there!

No offer yet-no offer yet! I'm puzzled quite to make it out; For every beau my cap I set, What, what, what are the men about?

They don't propose-they won't propose, For fear, perhaps, I'd not say "yes!" Just let them try-for heaven knows I'm tired of single-blessedness.

Not married yet-not married yet-The deuce is in them, I fear! I'm like a-something to be let, And to be let alone-that's clear. They say "she's pretty-but no chink-And love without it runs in debt!" It agitates my nerves to think [New Mirror. That I have had no offer vet!

> Washington. BY BRYANT.

Great were the hearts, and strong the minds, Of those who framed, in high debate, The immortal league of love that binds Our fair, broad Empire, State with State.

And deep the gladness of the hour, When, as the auspicious task was done In solemn trust, the sword of power Was given to glory's unspoil'd son.

Of fifty years have risen and set; But the bright links those chosen ones So strongly forged, are brighter yet.

Wide-as our own free race increase-Wide shall extend the elastic chain, And bind in everlasting peace, State after State, a mighty train.

Miscellaneous.

Dr. Kracksby and I; Or, the Recollections of an Unfortunate

"I do declare, I never will, so long as I live upon earth, Give my confidence again to a person of mortal birth.'

sed toward one another than Dr. Kracksby and Ah, thought I, when those discoveries were Our feelings, tastes, inclinations, and aversions, were the same; we were school-fellows in our boyish days, and companions in after remarkably lovely young lady. I was enraplife, when the rust of the school wore off, and tured with her, and she seemed vastly pleased we wore the polish of the world. The only with my attentions. I exerted myself very difference between us was, that I was the more modest of the two. Jack Kracksby was all lavished money in presents to her. I did in an all directions, and the street being remarkably still, I could hear that the house was all in an all directions, and the street being remarkably still, I could hear that the house was all in an all directions, and the street being remarkably still, I could hear that the house was all in an all directions, and the street being remarkably still, I could hear that the house was all in all directions, and the street being remarkable with the street being rema ways such a daring, impudent kind of fellow, everything to inspire a flame similar to that I that all the rest of the boys feared him; no felt burning within myself. But, alas! on the one was more expert of taking birds' nests, or very day that (having gathered sufficient courtaking currents from a neighbor's garden; the age) I had resolved upon asking the question, rogue was most expert at "appropriation," and my lady went off to Gretna Green with a litif I was ever lured into an act which my con- the bit of a puppy of an officer of the Lancers! science abhorred, Jack Kracksby was always Was'nt that provoking! do escape in the like manner.

and-thirty, was dubbed an M. D.

improved, my heart humanized, my lot made enviable, if I were to take unto myself a rib! I thought of it for a long time—I turned the subject over and over in my head—and, ultimately resolved upon her to dance, but, as I said, Miss Flossville preferred my consultation.

Full of the recollections of my former mismately resolved upon her to dance, but, as I said, Miss Flossville preferred my consultation. mately resolved upon leading a gentle damsel fortunes, I took the precaution to discover if

"Resolved to what?" said Jack.

three paces, and standing with one foot upon

plied, "Upon taking unto myself a wife."
"My dear Simon," said Jack Kracksby, recovering his perpendicularity, "my dear Simon, do you know what you are talking about?" "Precisely," quoth I, "I feel a sentiment for the married state."

"My dear Simon," rejoined Dr. Kracksby, have you no thought of the misteries, horrors, terrors, and diableries, attendant upon that

partial. I had taken his advice upon every other subject, but my heart intimated to me that it was not to be followed on this. Therefore I changed the subject, resolving not to sub- that, and I declared my passion as boldly as John was supplied with summer clothes, he etrates the blackness of the horrible delusion!

the question. I had but few acquaintances, my eyes to tell the rest,

in the sequel; but it was my destiny to be un-

fortunate! Alas!

Jack Kracksby, finding that he could not laugh me out of my resolution, e'en came family, round to me, and agreed to help me on in my road to matrimony. Under his directions I said I to him, when I promulgated the matter. discarded my snuff colored coat and bright "Remember, Euphemia is an heiress of thirty steel buttons, and had my hair tortured into beautiful curliness. I suffered a moustache to grow upon my upper lip, and altogether became quite an altered gentleman in appearance though could never understand why a man is not as well able to win a wife in a snuff colored coat and his hair combed straight on his forehead, as in a tight frock, and a head curled and bears' greased as mine was after it came out of the hands of Kracksby's barber. " Now then," quoth Jack, "you must cut your fireside and your lonely walks on the banks of the Regent's Canal, and frequent balls, the opera, and thea-

"What," cried I, "I go to balls and operas!" " Positively," responded Jack.

"Why, I've not danced since I was a boy of "No matter, you can look about you, talk

and so forth.'

And so Jack took me about with him, and good taste overcame my mauvais houte, and I began to relish my new sort of life amazingly. What a fool I used to be," I often said to myself. "Shut up in my little drawing-room all the winter, and tramping up and down the Regent's Canal, looking and thinking poetically of skies and water, and all the summer nonths! What pursuits for a man of taste and a gentleman."

I was particularly unfortunate in my attachments. Being of a very susceptible temperament, I could not but be fascinated by the stars of the fashionable world that met my eyes wheresoever I turned. I was struck twenty times in the course of a single night, and, generally, when I came to make inquiries respecting the charmers that had interested me. I had the misfortune to find that they were either married already, or about to bestow their hand There were never two friends better dispo- upon some one earlier in the field than myself.

made, "Ah, I was born to be unfortunate." Once my friend Jack introduced me to

This I Euphemia considered it would be better if we plied "pantaloons." thought an indisputable axiom; and, therefore, were not to meet so often, but correspond by "O! if that is all as I knew I could not live comfortably with letter, and asked me if I had not a friend in and weave him a pair before he goes." any of my female friends, I resolved rather to die a victim to celibacy than link myself to life to one of them.

whom I could confide. My feelings instantly suggested Kracksby. "Yes, my respected Miss Flossville," I exclaimed, "I have a friend, I was obliged to consult my friend Kracksby. a dear and true one. Dr. Kracksby will be I was obliged to ask advice of my dear friend our messenger." Euphemia, though she smiled Jack; but that dear friend Jack turned out at the mention of Jack's name, nevertheless to be a very great rogue, as you will find agreed to his being the medium of communication, and thus our fears of being separated were removed. It was an excellent thought, because Jack was the medical attendant of the

> "Be cautious and discreet, my dear Jack." thousand pounds."

"The deuce!" quoth Kracksby.

"Verily," responded I; and Jack promised to do his duty by me and execute his work carefully and promptly.

And Jack did do his work. I continued to ee and receive letters from my Euphemia, and I wrote replies which Jack very faithfully contrived to forward to her. I was able to say more upon paper than I could by word of mouth, and frequently I expressed my sentiments very warmly. Jack rose in my estimation very much, because he was so ready shears, half enough for a web; and let her go only been spread throughout the United States, but has gone to the quality of the castings on the beams of Rug-only been received from the above named cities of London, Paris, Edwown and appreciated in the cities of London, Paris, Edwown and appreciated in the cities of London, Paris, Edwown and spread throughout the London, Paris, Edwown and spread throughout the London, Paris, Edwown and spread throughout the London, Paris, Edwown and to act as messenger: indeed, he was at me go with the remaining part of the fleece. almost every hour in the day to know whether I had not a letter for Miss Flossville. Indeed, he intimated once or twice that there was no necessity for my appearing in the business at all, until the wedding day should arrive. "Be- hours before the brother's departure—that is lieve me, my dear Simon," he would say, to say, in forty hours from the commencement, "believe me, my dear Simon, I will do your business as well as you could do it yourself; Winslow Lewis, Jr., S. D. Townsend, Wm. J. Walker, Sam'l H. P. Lee, Edw. Reynolds, Alex. H. Stephens, Willard Parker and Sam'l H. Lee.

Winslow Lewis, Jr., S. D. Townsend, Wm. J. Walker, Sam'l H. P. Lee, Edw. Reynolds, Alex. H. Stephens, Willard Parker and Sam'l H. Lee.

At the Ploughing come near the house, she'll spirit Euphemia was preparing a garment for my darling broth-off to Cornwall immediately," This was enough to prevail upon so generous a minded person as myself. I could not bear the idea of sacrificing the happiness of Euphemia, and. therefore, I kept as much out of the way as I could, and corresponded with that interesting young lady by means of Kracksby. Thus our wooing went on, and I thought myself attain- execute his threat of marching through the ing the pinnacle of bliss.

One evening, however, when I had made an appointment to meet Euphemia at a fashionable party, in order to arrange matters for our wedding, for I began to grow anxious for that of each art and profession. He is the great happy event, she disappointed me. The hours flew on, but no Euphemia came: my heart ed into him life and love beyond the power of grew sick, I could not mingle in the gay and festive scene, I could not dance, I could not talk, I could do nothing. Ten, eleven, twelve o'clock came, but no Euphemia! I retired from the house, mournful and melancholy, and into other forms and for various uses. He made the best of my way to the house of her whom I adored. Lights were moving about fruit and flowers, and in all these labors man is in all directions, and the street being remarkan indescribable sensation. Strange ideas possessed my mind; it seemed to me a presentiment; my knees knocked together, my teeth chattered. "Merciful powers!" said I to myself, "Euphemia is ill! Perhaps, Euphe-

mia is dead!" I stood, as it were, paralyzed and fixed to the spot. I could not move! Clogs of iron seemed riveted to my feet. Still the noise in the house was going on, and lights were I could not tell whether the sounds were those on the bed of death! I saw an end thus sud-I knocked, but with no better success; the din and confusion within drowned the sound of the knocker. A third time I made an essay to be heard, and rapped with such fury that in less than two seconds a brace of powdered lacqueys threw open the hall door, and remained staring at my haggard visage.

"Where-where," I gasped, "is Euphe-

The lacqueys made no reply, but stood starng at me still.

" Is Miss Euphemia Flossville dead?" cried, with frantic impatience.

"No," was the reply. " Is she sick?"

"Where is she ?-what is the meaning of

his confusion?" "Oh," growled out one of the powdered fellows, "she was married to Dr. Kracksby this

It has arrested and cured numerous cases of scrotulous affections, diseases of the skin, having tried every thing else, have been entirely rheumatic gout, diseased liver, painful enlargement of the cured by this Plaster. IT IS SOMETHING properties of Sarsparilla, on which its activity depends, compounded with other remedial agents, selected from the vegetable kingdom, the whole strength of which is extract-Mechanic.

There is one labor, one profession only, which God has affixed the seal of nobility—on which he has conferred peculiar honors: It The following letter was addressed to our agents at Bos-

nate and inseperable from his being. The cares and expression of love are necessary to his existence, and more so to his happiness.—
"Love the Lord thy God with all thy heart and thy neighbor as thyself," is the first lesson of the Master; and daily, hourly does he scatter beautiful patterns of this great art in profusion upon the stands of his apprentices in this glorious workshop. He has given them a guide too, in which they may refer if their ears are too heavy and their eyes too dim to perceive clearly the delicate mechanism of the craft; and to stimulate them to the attainment of the greatest possible skill, he promises crowns, kingdoms, and immortal glory and honor in the skies.

[Laborer.

An Affectionate Spirit.—We some times meet with men who seem to think that any indulgence in an affectionate feeling is weakness. They will return from a journey and greet their families with a distant dignity, and move among their children with the cold and lofty.

For further particulars and conclusive evidence of its and tartibute bear timeless with a distant dignity, and move among their children with the cold and lofty.

MANUFACTURED BY Ruggles, Nourse & Mason. And for sale at the Manufactory in Worces-

ter, and at their Agricultural Warehouse and Seed Store,

Quiney Hall, Boston. RUGGLES, NOURSE & MASON, have added

I was unmoved by this torrent of talk: I "Bravo!" cried Kracksby, and he clapped the morning I found my mother in tears, who less void. In him, mind—the godlike gift of tant implement in agriculture, offered premiums for thought my friend Kracksby prejudiced and the best plough, under the day after to-morrow morning at sunrise. My father was at Boston, in the Massachusetts Assembly. Mother said that though Dodge, Esqrs., a most thorough and persevering traff was had at Salem in October last, occupying two fore I changed the subject, resolving not to subject my determination to the ridicule of my determination to the ridicule of my constitutional bashfulness would permit me: that is to say, I often whispered to her friend.

But how was I to get a wife? That was that I had a great respect for her, and suffered to the notation of the normal summer clothes, he may supplied with summer clothes, he may constitutional bashfulness would permit must be away seven or eight months; and must be away seven or eight months; and suffer for want of winter garments.

There were at this time no stores, and no arargy, or allay the consuming fever of the brain. manner in which it completes the work, are prominent points for consideration." And after giving a and really, and not to be scurrilous, there was It happened that our being so frequently would make itself. The wreck of mind is utterly remediless; reastatement of the first day's trial, at which there were son is prostrate; and passion, prejudice, and superstition, have reared their temple on the ruins of his intellect. I pity the unbeliever. What to him is the revelation from on high, but a sealed book? He sees nothing above, or around, to the plough and what to the ploughman; and as or beneath him, that evinces the existence of a there appeared in some instances an effort to enlarge God; and he denies—yes, while standing on the work beyond the natural powers of the plough, the footstool of Omnipotence, and gazing upon the dazzling throne of Jehovah, he shuts his of medium size, to be tried on a subsequent day; the intellect to the light of reason, and denies there smaller size to turn a furrow 12 inches wide and 7 inches deep; the larger size to turn a furrow 14 inches wide and 7 inches deep. The examination of these ploughs took place on the 24th of October. The ploughs were held by members of the committee." The following is a copy of their table, showing the comparative amount of power in pounds required to

perate the different ploughs: MEDIUM SIZE PLOUGHS. Winslow of Danvers, Prouty & Co., Boston, Ruggles & Co., Worcester, 425 lbs. 412 lbs. Howard, Hingham, 412 lbs.

Winslow, 512 lbs. Prouty & Co., 487 lbs Ruggles & Co., Eagle No. 3, Howard.

425 lbs. In speaking of the Improved Eagle Plough, to which they unanimously awarded the highest premium, they say:-"As near as we can ascertain, this plough combines all the good qualities manifested in

either of the others, with some peculiar to itself; and "further, our attention was particularly called

Andover Oct. 3, 1843, where there were forty-four competitors, nine of the ten premiums were awarded to ploughmen using ploughs made by Ruggles,

At the Ploughing Matches held in Massachusett CERTIFICATE. This is to certify that I have been af- the same year, forty-three premiums were awarded

April 16, 1844.

Rheumatism cured for 25 cents! J. ALLDS' VEGETABLE RHEUMATIC PLAS-TER is now offered to the public with the utmost confidence, as a sure Remedy for this painful disease. Hundreds have been CURED, and are now enjoying life, who had been laid by for months and years, and are ready to give their testimony in favor of this Plaster over all others; and many, who, after NEW, and only needs an application to prove itself. Such has been the call for them within six months past, that the proprietor has not been able, at all times, to SUPPLY. The proprietor has in his pos-session hundreds certificates of cures and of the efficacy of this Plaster. This Plaster not only cures the Rheumatism, but is one of the best remedies for pain in the side, back or limbs, or very strengthening plaster for a weak sinking stomach. There is a bill of directions accompanying every box, and are to be had of the following gentlemen, authorized agents,

namely:
Reuben Partridge, Augusta; Nathaniel Shaw, Hallowell; Ancyl Clark, Gardiner; Alphonso H. Clark, Pittston; Elias Haskell, Jefferson; Caleb Hodgdon, Hodgdon's Mills, Lincoln county; Genthner & Morse, Waldoboro'; William Walker, Peru; S. C. Moulton, Wayne; J. B. Fillebrown, Readfied; Samuel Chandler, Winthrop; Noah Bosworth, Canton Mills; John Hersey, Canton Point.

Plaster, must be directed to JOHN SAFFORD, 2d, Esq., Monmouth, Maine, (post paid,) General Agent for the State of Maine. Price, per box, 25 cents.

Grimes' Smut Machines. THE subscriber continues the manufacture of these Machines, at the Machine Shop of I. G. JOHNSON,

in Augusta. He has sold, within the last twelve months, one hundred, [All of which have given perfect satisfaction. [Persons desirous of testing the utility and power of these Machines may take them. on trial, and return them if dissatisfied. A correspondent of the Age Speaks of these Machines as follows:

"Mr. EDITOR:—Among the 'thousand and one', patent machines offered for sale at the present duy; there is one to which my attention has been called, which is no humbug; I allude to 'Grimes' Patent Snut Machine.' Having one of these Machines in my own mill, I speak advisedly, when I say, that if properly set up, it is a perfect cure for anutty grain. It combines in itself three of the most important qualities for any machine, namely, -simplicity of construction, durability of material, and compactness of form. One of these Machines is now in operation at Ma Bridge's grist mill, in Augusta, where gentlemen interested would do well to call, and satisfy themselves by personal inspection of the above facts. So thinks a MECHANIC." Apply to I. G. JOHKSON, ALLEN LAMBARD, or the subscriber.
